Project Design Phase-I Solution Architecture

DOMAIN : Applied Data Science

PROBLEM STATEMENT: University Admit Eligibility Predictor

TEAM ID : PNT2022TMID32493

TEAM MEMBERS : Barkavi B - 810019205021 (TM)

Brindha Roshini R - 810019205023 (TL)

Dhivia Dharisni L S - 810019205028 (TM)

Gayathri R - 810019205035 (TM)

SOLUTION ARCHITECTURE:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.
 - Define features, development phases, and solution requirements.
 - Provide specifications according to which the solution is defined, managed, and delivered.
